

WPC WALL CLADDING

With Wall Cladding becoming increasingly popular WPC Wall Cladding is ideal for commercial or domestic, new build or refurbishment. Made from unique combination of recycled wood and plastic, WPC Panels are developed to combine the traditional appearance of wood with the durability of an engineered composite. The right exterior wall cladding can have a dramatic impact on a building's appearance. WPC wall cladding is an economical way to finish the exterior or interior of your building and never needs painting, staining or treating, saving your money and time.
